## To the READER.

THIS Catalogue presents you with the Medicinal Parts of the Libraries of those two worthy Persons mentioned in the Title Page, amongst which, it's obvious to every one that is competently skill'd in the Editions, and hath tolerably inform'd himself of what's printed in the Faculty, to remarque several valuable and scarce Books. The late Sales of Books of this nature have been so much discouraged, either through the forgetfulness of the Gentlemen of the Profession as to the time, or by reason that the hours of Sale have interfered with their business, that I had once resolved to have disposed of them another way; but upon second thoughts this Experiment is made intentionally accommodated to the supposed leasurable time of the Practicers of that Noble Science, viz. from the hours of ten to 12 in the Morning, and from 3 to 6 in the Evening; and when I also reflect that they were the Books of two Eminent Physicians who were generally known to be Buyers of the choicest Books, I presume to promise to my self an encouragement in some measure answerable to the trouble and expence of the undertaking.

This Sale will begin on Monday the 12th day of April, 1686. at the Auction-house in Ave-Mary-Lane over against the Black Swan, from the hours of ten to 12 in the Morning, and from 3 in the Afternoon to 6 in the Evening, continuing daily till all the Books are sold.

---

## Conditions of Sale.

- I. **T**HAT he who bids most is the Buyer; and if any Difference arise, which the Company cannot decide, then the Book or Books shall forthwith be exposed to Sail again.
- II. That all the Books in this Catalogue, not otherwise expressed, (for ought we know) are perfect; but if any of them appear to be otherwise before they be taken away, the Buyer shall have his Choice of taking or leaving them.
- III. That the Money for the Book or Books so bought, is to be paid by the Buyer at the place of Sale, within one week after the Auction is ended.

That the Books will be exposed to view for three whole days before the Sale, from the Hours of Nine in the Morning to Twelve, and from Two to Six in the Evening.
